

Choose file format

Type filename with extension “.tsv”, “.skv” or “.prn” then save or export with each format .
In other case, saving or exporting with format CSV.

The screenshot shows a data table interface. At the top left is a blue menu icon labeled "Menu". To its right is a text input field for a filename, with an orange arrow pointing to it from the text box above. Further right are five icons: a circular "UPDATE" icon, a save icon, a share icon, a folder icon, and a question mark icon. Below these is a table with a header row and five data rows. The first row is a header with "Row No." in the first column and "[+Col]" in the last column. The next four rows are numbered 1, 2, 3, and 4. Rows 2 and 4 are highlighted in light blue. The last row is a footer with "[+Row]" in the first column.

Row No.					[+Col]
1					
2					
3					
4					
[+Row]					

※Automatically choose format TSV and CSV by extension when loading file.
